Travel-Highlights

«antique & modern»

A guided culture round trip through the century show you the «bella Napoli» and the contrasts of the city. You will also taste the Neapolitan traditional streetfood with our competent guide through the tasty food walk tour.

«verticale»

Paul Klee described Positano as «the only vertical place in the world» - the perfect stay to start your days out. The charm of this place will overcome you too!

«theatrical»

A hidden bay, you can reach with a private boat, will be a stage for you, Capri in the horizon the backstage. The sound of the sea and the delicious and wonderful local food will amaze you.

«up & down»

The steps are indispensable not only in the locations on the coast but also in the steep vineyards that take you to different levels with terraces full of vines and lemons. You will discover some enological treasures visiting a winery on the Amalfi coast.

«picturesque & rich of imagination»

You will discover a piece of the coastline in a different prospect - on a boat from Naples to Sorrento or in a trip from Positano to Capri, in the car to Amalfi and Maiori, by foot ... with or out paintbrush and canvas.

«sour»

«Where the lemons bloom» - already for Goethe the lemons have been a symbol for this landscape. You will get surprised from a lemon grove, the way it still is very alike.

«chic & natural»

That capri is a chic place is a legend. Famous are the sumptuous villas of the previous century. The typical vegetation of the island enchants you with a natural walk through the nature and gardens away from the tourists.

... and

- > Villa Kempff will inspire you with its artistic garden
- > you will climb through «the path of gods» in the fantastic nature with a breathtaking view
- > in a mediterranean garden you will admire the splendour of the plants having a snack to the end

Ulimengo-Bricks
